

No year without investing!

The SkiWelt Panorama 2019/20 is ready for a download at images.skiwelt.at/

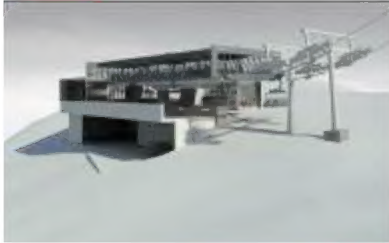

Winter season 2019-20

Continuous ski operation from **Saturday, 07th December 2019 until 13th April 2020**

Also on the preceding weekends, given satisfactory snow conditions!

SkiWelt lift operating times: daily from 08.30 am until 4.00 pm (individual cable cars and lifts have earlier closing times. Please bear this in mind when choosing your route!) **Wow! Such a long skiing pleasure:** From 25th January 2020 the closing time will be extended from 04.00 pm to 4.30 pm.

★ Wow! So much new!

www.skiwelt.at

Wow! Snow is guaranteed! WOW! So future-oriented - SkiWelt's first hi-tech 8/10 CGD combination lift is set to replace the 4-seater Zinsbergbahn.

SkiWelt Brixen im Thale is investing EUR 15.5 million in the new Zinsbergbahn

The popular Zinsbergbahn lift, opened in 1987 as Europe's first chairlift with a protective bubble, is being replaced after 32 years of operation, transporting no fewer than 25 million winter sports fans – all accident-free.

The new Zinsbergbahn, a combined cabin- and chairlift, offers ten large gondolas with panoramic views, as well as super-comfortable 8-person seating with bubbles to protect against the weather. It is the first of its kind not only in the SkiWelt Wilder Kaiser – Brixental, but also in the entire Kitzbühel Alps.

WOW! Super-fast and with great views – just 5 minutes up to SkiWelt's "top" viewing point with its new panoramic terrace.

Faster, more convenient, more promising: State of the art 8-person chairlift replaces 3-seater chairlift

After more than 12,000,000 rides and 25,000 hours of operation, time will be called on 31 March 2019 for the 1983-vintage Fleidingbahn lift! SkiWelt Westendorf has another major project in the pipeline: it has invested EUR 15.5 million in the new 8CLD/B Fleidingbahn, complete with magnificent vistas.

The new Fleidingbahn lift will mean new levels of comfort, service and speed: planned is one of the world's most advanced 8-person chairlifts with comfort suspension, seat heating and bubbles for weather protection. At 2,730 people per hour, carrying capacity will be enormously increased and the new routing will offer skiers a longer piste for yet more fun on the slopes.

Hexenwasser gondola: insanely comfortable, family-friendly & entertaining

Around € 16 million will be invested in a state-of-the-art 10-seater gondola lift in the SkiWelt Söll.

The ride on the new Hexenwasser gondola will be "Almost as beautiful as a flight on a witch's broom" from July 2020 on.

The gondola ride to Hexenwasser Söll will be a real experience in the future - summer and winter - the lift operator Söll has decided to replace the now 30-year-old 8-seater gondola lift by July 2020 with a modern 10-seater gondola. Families and small to very small passengers are particularly well taken care of: for them, the ride on the "Hexenwasser gondola" - as the new, informative name says - will be staged like a comfortable ride on the famous witches' broom and tell entertaining and informative stories.

Each cabin is "bewitched" individually so that the Hexenwasser adventure begins as soon as you enter the gondola. Naturally, all details of the unforgettable "Hexenwasser ride" should not yet be revealed. To tell the least: each of the 72 gondolas in total tunes their guests to the experience on the mountain in terms of design and appearance.

Completion: July 2020

Salvistabahn Itter: So much quality!

The quality offensive in the SkiWelt Hopfgarten-Itter continues and around € 24 million will be invested in the new Salvista gondola including the technology center and reservoir lake.

The Salvista gondola was built in Itter in 1986 - the first two years as a chair lift, and in 1989 a 4-seater gondola lift to the Kraftalm was finally built. In winter 2019/20 this lift will be in operation for the last season and in 2020/21 you will be able to access the Kleine Salve with an ultra-modern 10-seater gondola lift. The valley station of the new cable car is in the same place as the old station, the route to Kraftalm will also be the same. A middle station with boarding and alighting will be built at the Kraftalm, the new lift will be a total of 650 m longer.

The infrastructure in the building of the valley station with sports shop, ski rental and ski depot will be completely renewed. The new Salvista gondola will start operating in time for the 2020/21 winter season.

The attractiveness of the new lift will be increased enormously by the extension of the lift, the creation of new slopes and also by the continuous summer operation in the future.

Completion: Beginning of winter 2020-21

REAL BIG

Skimovie run - SkiWelt Scheffau (giant slalom)

The BMW X drive Cup Ski movie track is located at the Südhang slope (no. 66). A camera films you as you speed down the run. Afterwards you not only see your personal time but also get a rapturous applause as you cross the finish line. You can conveniently download your personal SkiWelt Ski Movie by entering your ski pass number into your Skiline account or watch it straight away at the Skiline terminals at the top stations of SkiWelt.

ALPENIGLU® Village: A world of icy attractions

This snow village with 18 igloos is located at Hochbrixen mountain station and is easily accessible also for non-skiers.

Igloo hotel, restaurant, bar, ice exhibition, sun lounge – the ALPENIGLU® village is a theme park with a difference. The focus here, of course, is the stuff that winter dreams are made of: Ice!

Highlights in the ice art ICE LAND exhibition include a fondue on a crystal-clear ice table, nights in the Igloo Suite and cool drinks from glasses made of ice.

The ALPENIGLU® village is an exceptional place and an ideal event location for your conference or incentive. A great variety of winter sport activities for groups complete the perfect offer. www.skiwelt.at/en/alpeniglu

Skimovie run „Red Viper“- SkiWelt Söll (Ski- & Boardercrossline)

At the Rinnerabfahrt (46) in the SkiWelt Söll we offer a Ski- & Boarder crossline with time measurement, the "Red Viper". A special highlight is the video recording during the race via Skimovie. The videos can later be watched with the personal ski pass number on Skiline and can be downloaded.

Skimovie run - SkiWelt Westendorf

The Skimovie run is located at the Laubkogel in Westendorf: every run is recorded on video. The best races can be watched with your personal skiline-code at www.skiline.cc and can also be downloaded!

„Black Pipe“- SkiWelt Söll

Have you ever felt the freedom in the powder? Now you can, because a special challenge is waiting for you at SkiWelt Söll: the "Black Pipe" **freeride run** from the Hohe Salve for experienced skiers and snowboarders! The freeride trail takes you down the broad open terrain of the Hohe Salve. The steep section of the **descent is more than 80 %** - a real challenge for all adrenalin junkies!

Speed measurement runs - Brixen, Ellmau und Söll

Fun for young and old! At our SkiWelt speed measurement runs in Brixen im Thale, Ellmau-Going and Söll you can compete against your friends and see just how fast you can go on skis!
